

She Codes 2019

Effat University Annual Programming Competition for Female Undergraduate Students

Contest Rules Summary:

- Each team consists of at most 3 students.
- Each team gets to use one computer.
- The contest typically lasts five hours.
- Problems may vary (considerably) in difficulty, and appear in `random' order in the problem set.
- No external help is allowed during the contest.
- Notes and books are allowed into the contest area.
- Electronic devices including phones, calculators or smartwatches are not allowed in the competition area.
- Help from coaches is not allowed.
- Coaches are not allowed into the contest area after the start of the competition.
- Any team that does not follow the above rules will be disqualified from the competition.
- Solutions must be submitted through the mechanism/system provided.
- Each submission is judged during the contest (a.s.a.p.) as accepted or rejected; the latter will be explained a little bit, but without further details; e.g.:
 - compile-time error
 - run-time error
 - resource-limit exceeded
 - incorrect output format
 - incorrect output
